Professional Experience

Adfire Health, *Full-Stack Software Engineer* ⧉ — 2022 May – present, Remote, United States

- Developed and maintained Live Recruit, a cutting-edge virtual hiring platform for Katon, utilising the MERN stack to ensure optimal performance and seamless user experience.
- Streamlined the recruitment process for multiple healthcare clients, resulting in a 30% reduction in time-to-hire according to the clients' analytics and feedback.
- Implemented real-time video interview functionality, automated candidate screening, and intelligent applicant tracking to streamline the hiring workflow, resulting in increase of the recruitment efficiency.

Systems Limited, *Associate Consultant* ⧉ — 2021 Jan – 2022 May, Remote, Pakistan

- Played a pivotal role as a Full-stack Developer in the Dynamics Commerce team, specialising in the development of new modules and client-facing applications using React and TypeScript.
- Collaborated closely with a cross-functional team to successfully deliver multiple client-facing B2B and B2C E-Commerce stores, resulting in a 25% increase in online sales and improved customer satisfaction.
- Provided technical guidance and mentorship to junior developers, fostering a collaborative learning environment and contributing to the overall growth and productivity of the team.

VentureDive, *Junior Developer* ⧉ — 2021 Nov – 2021 Jan, Karachi, Pakistan

- Contributed to the development of a team collaboration application using full-stack technologies, enhancing communication and productivity among team members.
- Worked with the team on daily sprints and delivering new features and functionality for two web portals within an existing product.
